### Explanation of Reference Numerals

1...shape and texture data measuring device, 2...recording device,  
11...three-dimensional shape and texture measuring equipment,  
12...security information input device, 13...memory, 14...signal  
processing unit, 15...storage unit, 16...standard model, 17,  
21...interface, 22...memory, 31...three-dimensional shape data,  
32...texture data, 33...security data, 41...application system,  
51...input-output controller, 52...memory, 53...signal processing  
unit, 54...storage unit, 55...standard model, 56...input unit,  
57...three-dimensional image generator, 58...image display unit,  
61...interface, 62...authentication data input unit.
